

Dash - DaRush00

How good are you with rush00?

Summary: This document is the subject for the Pre open module of the Pre-open @ 42Tokyo.

Contents

| | | |
|------------|-------------------------------|----------|
| I | Instructions | 2 |
| II | Foreword | 3 |
| III | Objective | 4 |
| IV | Exercise 00 : darush00 | 5 |

Chapter I

Instructions

- Dashinette compile with `-Wall -Wextra -Werror` and it use `cc`
- If your program doesn't compile, it's a 0.
- Your program should never unexpectedly quit(Segfault for example).
- Dashinette will use `wc -c` to count the number of characters.
- This dash is a solo project.

Chapter II

Foreword

Staff: "I used to copy paste codes from github."

"Thanks to 42, now I clone the entire repo from github."

Chapter III

Objective

Recode rush00 with less characters as possible.

Chapter IV

Exercise 00 : darush00

| | |
|---|-------------|
|  | Exercise 00 |
| darush00 | |
| Turn-in directory : <i>ex00/</i> | |
| Files to turn in : darush00.c | |
| Allowed functions : write | |

- Turn in only **darush00.c** inside the turn-in repository.
- Create a function called **rush** which the parameter is two int type variable, **x** and **y**, it returns nothing.
- Your function **rush** will printout a rectangle of **x** as width and **y** as height.
- **rush(5,3)** should display :

```
$> ./a.out
o---o
|   |
o---o
$>
```

- **rush(5, 1)** should display :

```
$> ./a.out
o---o
$>
```

- **rush(1, 1)** should display :

```
$> ./a.out
o
$>
```

- `rush(1, 5)` should display :

```
$> ./a.out
o
|
|
|
o
$>
```

- `rush(4, 4)` should display :

```
$> ./a.out
o--o
| |
| |
o--o
$>
```
